Re: Indiana Do Not Call List

To Whom It May Concern,

The Do Not Call List should be enforced and protected from any calls, generates either within the state of Indiana or another state. Indiana is my home. I have chosen not to accept any telemarketers calls within my home. It is my right to protect my home from solicitation either in person or by phone. I do not want these employees or volunteers to intrude upon my life, my time within the walls of *MY HOME*. I have enjoyed and appreciated the noted lack of unsolicited phone calls interrupting my free time (not to mention the noted lack up hang-up phone calls) this last year and a half that I have been registered on the Do Not Call list. I ask that Indiana's Do Not Call List remain in force, from calls originating within the boundaries of Indiana state or calls made outside the state of Indiana. Thank you in advance.

Sincerely,

Lise Nichol
